

Subnetting Class B Networks

- The exact same process as before...
- Except we begin subnetting in the 3rd octet!

Class B:	Network	Network	Host	Host
Subnet Mask	11111111.	11111111.	00000000.	00000000
	255.	255.	0.	0

Begin Subnetting Here

A red arrow originates from the text 'Begin Subnetting Here' and points to the first '0' of the third octet in the subnet mask row.
